

Ocean Reef Two-day Workshop

By Ana Sumner

Presented by

Gateway East Artists Guild

Ocean Reef is a creative workshop of an underwater ocean scene that explores one's imagination through the unique medium of Mixed Media Fiber Art. The supplies are provided and each person will come away with an 8 x 10 original underwater ocean scene art piece, and an understanding of tools & techniques.

Day one will be a hands-on exploration of fabric paints, painting techniques and their uses on cottons, silk ribbons, lace and cheese cloth for the sea plants and reef base.

We will also prepare the fabric for stitching.

Day two, using the painted fabrics, we will create the reef and fish. Then embellish with basic embroidery, silk ribbon stitches, speciality threads & beads to create the plants of an underwater reef.

Date: May 5 & 6, 2018 **Time:** 9:30 to 3:30 30 min. lunch, bring yours
